

P-Series Cloud Edition Solution Brief

Accelerate Time to Market & Jump Start Revenue
Growth

Why Cloud PBX & Unified Communications

Numbers Don't Lie

Cloud

90%

New businesses that switch to cloud-based hosted VoIP can cut initial start-up costs by up to 90%.

Remote Working

80%

80% of the global workforce has already spent time working away from a desk each day.

Mobility

74%

74% of employees use mobile app for business calls with VoIP service. It is projected that there will be 3 billion mobile users of VoIP by 2021.

UC

32

Having unified communications help employees save an average of 32 call minutes per day.

These businesses may find Cloud PBX a perfect fit

- Businesses short of IT staff and avoiding maintaining PBX equipment
- Seasonal businesses with fluctuating communications needs
- Companies operating at multiple sites
- Rapidly growing start-ups with unpredictable future capacity needs
- Businesses having a number of teleworkers and remote employees
- Companies lacking traditional office space

High Scalability for Future Expansion

Easily add new users and expand the system as business grows

Particularly
beneficial to
these scenarios

Planning a move

Having seasonal staffing requirements

Supporting temporary staff

Pursuing a growth goals or geographic expansion

Unifying Multiple Locations

- Connecting the headquarter, branches, remote offices, and a handful of teleworkers under a single cloud phone system
- Giving geographically dispersed employees the same features and continuity
- Realizing direct transfers and extension-dialing between multiple business locations
- Removing the need for IT professionals to manage communications systems at each site

P-Series Cloud Edition

P-Series Phone System provides a Cloud Edition to help today's increasingly dispersed organizations stay connected and engaged. With both business customers and service providers in mind, it strikes the perfect balance between offering best-of-breed UCaaS and easing deployment and operation complexity.

A full-featured Cloud PBX & UC solution
